

**POSITION:** Adjunct Engineering Instructor (Part-Time)

**FIRST REVIEW OF APPLICATIONS:** June 18, 2012

**EFFECTIVE DATE OF EMPLOYMENT:** August 15, 2012

**SALARY RANGE:** Salary based on College's Salary Plan

**QUALIFICATIONS:**

A master's degree with 18 graduate semester hours in engineering from a regionally accredited institution is required. College teaching experience is preferred with a good knowledge of the principles and theory of engineering design.

**POSITION DUTIES:**

The primary instructional responsibility is to prepare and deliver lectures, lead discussions, and conduct laboratory demonstrations associated with the engineering design process. Topics include, but are not limited to, the introduction of various engineering disciplines and the analysis, design, development, implementation, and evaluation of engineering projects. The instructor must have excellent written and oral communication skills and keep accurate records. The successful applicant must exercise critical human relationship skills in establishing and maintaining effective working associations with students and the public.

Courses are scheduled to provide maximum convenience and access for students, while respecting the time and needs of the faculty. This position is proposed for a blended environment of Internet-based instruction with a minimum of four on-campus class meetings scheduled.
